PUBLISHERS REPORT ON PROFIT-SHARING

Civil Federation Completes Investigation and Submits Data Obtained.

NEW YORK, May 1.—Publication of the report on "Profit Sharing By American Employers" by the Welfare Department of the National Civil Federation is announced by Robert H. W. W. chairman of the executive council, who says: "There has been a marked growth of interest in the profit-sharing idea and a large number of new schemes have been launched, but thus far the newspapers have been the only source of information with regard to these recent experiments, some of which are of far-reaching extent."

"The aim of this report has been to give a concise, uncolored account of each plan, based upon the data furnished by the respective companies, with the own comments as to its success or failure."

There is included in addition, as an entirely new feature of exceptional value, a group of interesting opinions and discussions on profit sharing in theory and in practice, pro and con, by a number of prominent employers, representatives of organized labor, and special students of the subject.

Swab, Samu, Gomper, president of the American Federation of Labor; Warren E. Stone, grand chief of the International Brotherhood of Locomotive Engineers; W. D. Mahon, president Amalgamated Association of Street Railway Employees, and many others are quoted in some length; which is to say that every important advantage and defect of profit-sharing as a practical means of today's view of the problem is set forth tersely and to the point, with no academic hair-splitting.

"There is included a review of English and French experience with profit-sharing, and the whole work is intended to serve the needs of the growing number of business men who are interested in the idea of profit-sharing, but want to know just how it works."

"Employers who do not only desire to find a means of more widely distributing earnings, but of recognizing meritorious or loyal service, and wish to get the experience of others stimulated by a like motive, will find answers to their natural queries set forth in this report. The book may be secured at the federation's headquarters, thirty-third floor, Metropolitan tower, New York, by applying to L. A. Coolidge."

Talk in Rome of Bulgar King Giving Up Throne

ROME, May 1.—The whereabouts of the King of Bulgaria are unknown. About a month ago it was officially announced that he was at Coburg, Germany, suffering from an attack of bronchitis, and it was widely expected that his convalescence would be long.

The King's prolonged absence from Sofia has not been explained, and there is good reason for believing that his return is problematical, since Crown Prince Boris has been invested with the regency. It is rumored that King Ferdinand will abdicate, and likely be announced in the near future.
